

## Customized PVC Pipe Machine with 70mm Screw Size and 38CrMoAlA Barrel Material

Our Product Introduction

more products please visit us on [plasticextrudersmachine.com](http://plasticextrudersmachine.com)

### Basic Information

- Place of Origin: Shangdong, China
- Brand Name: Changyue

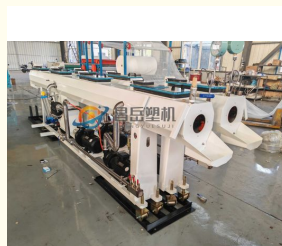

### Product Specification

- Screw Diameter: 50-120mm
- Application: PIPE
- Barrel Material: 38CrMoAlA
- Inverter Brand: ABB/Delta
- Applications: Vacuum Cleaner Hose
- Plastic Processed: PVC
- Pipe Diameter: 16-63mm
- Plc Control: Yes
- Highlight: customized pvc pipe machine,  
customized pvc pipe making machine,  
63mm pvc pipe machine

## Product Description

### Product Description:

Weighing in at 20,000 KG, our PVC pipe extrusion machine is built to handle heavy-duty production tasks. The screw diameter ranges from 50-120mm, providing versatility and flexibility in the types of pipes that can be produced. Whether you need to create large diameter pipes or small diameter pipes, this machine has got you covered.

In addition to its robust construction and advanced control system, our PVC pipe making machine is equipped with a top-of-the-line inverter brand, either ABB or Delta, ensuring reliable and efficient performance over the long-term.

Whether you're a small business owner or a large-scale manufacturer, our PVC conduit pipe making machine is the perfect solution for all your pipe extrusion needs. Contact us today to learn more about our PVC pipe extrusion machine and how it can benefit your production processes.

### Features:

Product Name: Plastic Pipe Extrusion Machine

Barrel Material: 38CrMoAlA

Screw Diameter: 50-120mm

Plastic Processed: PVC

Machine Dimension: 10m\*2m\*2m

Inverter Brand: ABB/Delta

This pipe PVC machine, also known as a PVC pipes manufacturing machine, is a high-quality PVC pipe extrusion line that features a 38CrMoAlA barrel material, screw diameter ranging from 50-120mm, and is capable of processing PVC plastic. The machine is 10m\*2m\*2m in size and features an inverter brand of ABB/Delta.

### Technical Parameters:

Machine Dimension	10m*2m*2m
Screw Diameter	50-120mm
Hs Code	84772090
Plc Control	Yes
Application	PIPE
Feeding Mode	One Feed
Screw Size	70mm
Plastic Processed	PVC
Applications	Vacuum Cleaner Hose, pvc electric conduit pipe making machine, pvc pipe marking machine, pvc pipe line
Pipe Diameter	16-63mm

### Applications:

The PVC pipe marking machine is an essential tool used in the production of PVC pipes with diameters ranging from 16-63mm. With its reliable and high-quality construction, the Changyue Plastic Pipe Extrusion Machine is suitable for various applications and scenarios. One common application of the PVC pipe making machine is in the construction industry. PVC pipes are widely used in drainage systems, water supply systems, and other plumbing applications. The Changyue Plastic Pipe Extrusion Machine is ideal for producing high-quality PVC pipes that meet industry standards and specifications.

Another application is in the agricultural sector. PVC pipes are commonly used for irrigation systems, and the Changyue Plastic Pipe Extrusion Machine is an excellent choice for producing pipes that can withstand the harsh conditions of agricultural environments.

The PVC pipe making machine is also suitable for manufacturing pipes used in the transportation of chemicals and other liquids. The pipes produced by the Changyue Plastic Pipe Extrusion Machine are durable and can withstand exposure to various chemicals, making them ideal for use in chemical plants and other industrial applications.

Overall, the Changyue Plastic Pipe Extrusion Machine is a versatile and reliable machine that can be used in various industries and scenarios. Its high-quality construction and efficient operation make it an ideal choice for anyone looking for a PVC pipe making machine that can produce high-quality pipes.

### Customization:

Looking for a customized plastic pipe extrusion machine? Look no further than Changyue, a trusted brand originating from Shangdong, China. Our machines come equipped with top-of-the-line ABB/Delta inverters and a screw diameter ranging from 50-120mm. With a one feed feeding mode and the ability to produce pipes with diameters from 16-63mm, our machines are perfect for manufacturing PVC pipes. Additionally, our machines are great for producing vacuum cleaner hose. Contact us today to learn more about our PVC pipe machine

and PVC pipe marking machine customization services!

**Support and Services:**

Our Plastic Pipe Extrusion Machine is designed to meet the highest industry standards and provide reliable performance. Our team of technical support professionals is available to assist with installation, operation, and maintenance of the machine. We offer comprehensive training programs to ensure that our customers are fully equipped to operate and maintain the machine. In addition to technical support, we offer a range of services to ensure the ongoing performance of the Plastic Pipe Extrusion Machine. These services include regular maintenance and inspection, replacement parts, and upgrades to keep the machine up to date with the latest technology and industry standards.

Our goal is to provide our customers with the highest level of technical support and services to ensure the long-term success of their operations. Please contact us for more information on our technical support and services.
