

PE Manufacturing Plant Plastic Mixer Crusher Pulverizer SRL-Z 500/1000 with Vertical Structure

Our Product Introduction

more products please visit us on plasticextrudersmachine.com

Basic Information

- Place of Origin: Shangdong, China
- Brand Name: Changyue

Product Specification

- Capacity: 350-500 KG/H
- Suitable For: PVC And Additives
- Plastic Type: PVC, ABS, PP/PE, PE, PMMA
- Screw Design: Single-screw
- Advantage: HIGH OUTPUT
- Crushing Material: PVC HDPE PP PMMA ABS
- Loading Port: Qingdao Port
- Applicable Industries: Manufacturing Plant, Home Use, Food Shop
- Highlight: 500/1000 plastic pipe crusher,
500/1000 plastic mixer crusher pulverizer,
pmma plastic pipe crusher

Product Description

Product Description:

The Plastic Mixer Crusher Pulverizer is a top-of-the-line product manufactured by CHANGYUE, a well-known brand in the plastic processing industry. With its Model No: SRL-Z 500/1000, this equipment is suitable for use in small to medium-sized plastic processing plants.

This product is capable of crushing and grinding plastic materials into small pieces, making it easier to process and recycle them. The Plastic Mixer Crusher Pulverizer can handle a wide range of plastic materials, including PVC, HDPE, PP, PMMA, and ABS. This versatility makes it an essential piece of equipment for plastic manufacturers who need to process different types of plastic materials.

The Plastic Mixer Crusher Pulverizer has a loading port that is located at Qingdao Port, making it easy to transport and ship to different locations. This feature ensures that plastic manufacturers can easily access this equipment, no matter where they are located.

The Plastic Mixer Crusher Pulverizer comes with a Machinery Test Report, providing assurance that the equipment has undergone rigorous testing to ensure that it meets industry standards. This report is an important document that gives plastic manufacturers peace of mind, knowing that they are investing in a high-quality product that has been tested and proven to be reliable.

Overall, the Plastic Mixer Crusher Pulverizer is a reliable and efficient piece of equipment that is essential for plastic processing. Its ability to mix and crush plastic materials, its versatility in handling different types of plastic, and its loading port at Qingdao Port make it an ideal choice for plastic manufacturers. With its Machinery Test Report and trademark CHANGYUE, this product is a top-of-the-line choice for any plastic processing plant.

Features:

Product Name: Plastic Mixer Crusher Pulverizer

Structure: Vertical

Trademark: CHANGYUE

Condition: New

Crushing Material: PVC HDPE PP PMMA ABS

Machinery Test Report: Provided

Technical Parameters:

Model No:	SRL-Z 500/1000
Advantage:	HIGH OUTPUT
Condition:	New
Suitable For:	PVC And Additives
Structure:	Vertical
Capacity:	350-500 KG/H
Trademark:	CHANGYUE
Loading Port:	Qingdao Port
Processing:	Mixer
Screw Design:	Single-screw

Applications:

The Plastic Mixer Crusher Pulverizer is ideal for crushing materials such as PVC, HDPE, PP, PMMA, and ABS. It can be used in a wide range of applications and scenarios where these materials need to be crushed or pulverized.

One of the key applications of this machine is in the production of plastic products. It can be used to crush and mix the raw materials before they are molded into the desired shape. This ensures that the final product is of high quality and meets the required specifications. The Plastic Mixer Crusher Pulverizer is also useful in recycling plants. It can be used to crush and pulverize plastic waste to make it reusable. This helps in reducing the amount of waste that ends up in landfills and also conserves natural resources.

Another application for this machine is in the production of PVC pipes and fittings. It can be used to crush and mix the PVC powder with additives to produce the desired compound for making pipes and fittings. The resulting product is of high quality and meets the required standards.

The Plastic Mixer Crusher Pulverizer is also suitable for use in the production of plastic film and sheeting. It can be used to crush and mix the raw materials before they are extruded into film or sheeting. This ensures that the final product is of high quality and has the required properties such as tensile strength and tear resistance.

The loading port for this machine is Qingdao Port, which is a major port in China. This makes it easy to transport the machine to different locations around the world.

In summary, the Plastic Mixer Crusher Pulverizer is an essential machine for any business that deals with plastic materials. It is versatile and can be used in a wide range of applications and scenarios. Whether you are in the production of plastic products, recycling, or the production of PVC pipes and fittings, this machine will help you achieve your goals. Invest in the Plastic Mixer Coarse Crusher, PVC Crusher Pulverizer, Plastic Mixer Crusher Pulverizer today and take your business to the next level.

Customization:

Customize your Changyue PVC Crusher Pulverizer, Plastic Mixer Pulverizer or Plastic Mixer Crusher Pulverizer according to your requirements. Our products are made in Shangdong, China and come with a machinery test report. They are suitable for use in manufacturing plants, homes, and food shops. Our products are specifically designed for PVC and additives. The loading port for our products is Qingdao Port. All our products are brand new and in excellent condition.

Support and Services:

The Plastic Mixer Crusher Pulverizer comes with technical support and services to ensure efficient operation and maintenance. Our expert team provides installation assistance to ensure that the product is set up correctly and ready for use. We also offer training to operators and maintenance personnel to ensure safe and efficient operation of the product. Our technical support team is available to provide guidance and troubleshooting assistance in case of any issues or concerns that may arise during use. In addition, we provide spare parts and repair services to ensure that the product remains in optimal working condition. Our goal is to ensure that our customers receive the highest level of support and service for their Plastic Mixer Crusher Pulverizer.

Packing and Shipping:

Product Packaging:

The Plastic Mixer Crusher Pulverizer is carefully packaged in a sturdy cardboard box with foam inserts to ensure safe transport. The product is also wrapped in plastic to prevent any damage during shipping.

Shipping:

Shipping for the Plastic Mixer Crusher Pulverizer is conducted via standard ground shipping. We aim to ship all orders within 24 hours of receiving them, and delivery times may vary depending on your location. Please allow up to 5-7 business days for your order to arrive. If you require expedited shipping, please contact our customer service team for further assistance.

FAQ:

Q: What is the brand name of the plastic mixer crusher pulverizer?

A: The brand name of the plastic mixer crusher pulverizer is Changyue.

Q: Where is the plastic mixer crusher pulverizer manufactured?

A: The plastic mixer crusher pulverizer is manufactured in Shangdong, China.

Q: What is the capacity of the plastic mixer crusher pulverizer?

A: The capacity of the plastic mixer crusher pulverizer ranges from 100 kg/h to 800 kg/h.

Q: What is the power consumption of the plastic mixer crusher pulverizer?

A: The power consumption of the plastic mixer crusher pulverizer ranges from 22 kW to 75 kW.

Q: What are the materials that can be processed by the plastic mixer crusher pulverizer?

A: The plastic mixer crusher pulverizer can process various plastic materials such as PVC, PE, PP, ABS, and PET.
