

## PLC Control System Geo Extrusion Machine for Plastic Extrusion Manufacturing

### Our Product Introduction

more products please visit us on [plasticextrudersmachine.com](http://plasticextrudersmachine.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: CHANGYUE
- Certification: CE
- Model Number: 90 MM
- Minimum Order Quantity: 1
- Price: USD 38000
- Delivery Time: 30 days
- Payment Terms: 30% advance, balance before shipment
- Supply Ability: 5 / month

#### Product Specification

- Warranty: 1 Year
- Automation: Fully Automatic
- Material: Plastic
- Output: High Quality
- Capacity: High
- Control System: PLC
- Type: Extrusion Machine
- Application: Geosynthetics Production
- Highlight: **Geo Extruder Machine,  
Geo Material Extrusion Machine,  
High Capacity Geotextile Extrusion Machine**

## Product Description

### Product Description:

The Geo Extrusion Machine boasts a high production capacity, making it ideal for large-scale manufacturing operations. With its advanced control system, which uses a PLC, users can easily control and monitor the entire production process, ensuring consistent and reliable output every time.

Whether you need to produce geotextile products for erosion control, soil stabilization, or other applications, this machine has you covered. Its precise extrusion process ensures that every product meets the highest quality standards, making it perfect for use in even the most demanding environments.

The Geo Extrusion Machine is also incredibly versatile. With its geocell extrusion unit, users can produce a wide range of geotextile products, including geocells and other specialized products. And with its durable construction and low maintenance requirements, this machine is built to last, providing reliable performance year after year.

So if you're looking for a high-quality geotextile extruder plant that offers unmatched production capacity, precise control, and reliable performance, look no further than the Geo Extrusion Machine.

### Features:

Product Name: Geo Extrusion Machine

Automation: Fully Automatic

Application: Geosynthetics Production

Output: High Quality

Type: Extrusion Machine

Capacity: High

Output Description:

Geo-composite Extrusion System

Geogrid Manufacturing Machinery

Geocell Extrusion Unit

### Technical Parameters:

Material:	Plastic
Output:	High Quality
Warranty:	1 Year
Control System:	PLC
Automation:	Fully Automatic
Application:	Geosynthetics Production
Type:	Extrusion Machine
Capacity:	High

This Geo Extrusion Machine is a high-quality piece of Geo-stabilization Extrusion Equipment, designed for fully automatic Geotextile Extruder Plant operation. With a PLC control system and a 1-year warranty, it is ideal for Geosynthetics Production at a high capacity.

### Applications:

This extrusion machine is specifically designed for geo-stabilization applications and is ideal for producing geocell products. Its high precision technology ensures a consistent and accurate output, making it perfect for large-scale production. The Geo-stabilization Extrusion Equipment is made from high-quality materials and is built to last, ensuring a long lifespan and minimal downtime.

The Geo Extrusion Machine is an essential piece of equipment for companies involved in the production of geocell products. It can be used in a variety of industries, including civil engineering, construction, and environmental protection. In particular, it is ideal for applications related to soil stabilization, erosion control, and slope protection.

With a minimum order quantity of just one unit, the Geo Extrusion Machine is accessible to businesses of all sizes. It is priced at USD 38000, with a delivery time of 30 days. Payment terms require a 30% advance, with the balance due before shipment. CHANGYUE has a supply ability of 5 machines per month, ensuring that your production needs can be met in a timely manner.

As a plastic material extrusion machine, the Geo Extrusion Machine comes with a 1-year warranty, giving you peace of mind and protecting your investment. Whether you are setting up a new production line or upgrading your existing equipment, the Geo-stabilization Production Equipment is an excellent choice for your business needs.

### Customization:

CHANGYUE 90 MM Extrusion Machine for geogrid manufacturing machinery, geotextile extrusion machine, and geo-composite extrusion system. Made in CHINA with CE certification.

Minimum order quantity is 1 unit at a price of USD 38000. Delivery time is 30 days with a supply ability of 5 units per month. Control system is PLC with fully automatic automation. Warranty is provided for 1 year and payment terms are 30% advance with the balance due before shipment. Material used is plastic.

### Support and Services:

The Geo Extrusion Machine is a state-of-the-art product designed to provide high-quality extruded products. Our technical support and services team is dedicated to ensuring that our customers receive the best possible experience with our product.

We offer:

- 24/7 technical support
- On-site installation and training
- Regular maintenance and servicing
- Upgrades and customizations
- Warranty coverage

Our team of experienced technicians is available to answer any questions and resolve any issues that may arise. We are committed to providing our customers with the best possible support and ensuring that our product meets their exact needs.

### Packing and Shipping:

#### Product Packaging:

The Geo Extrusion Machine will be securely packed in a cardboard box with foam inserts to prevent any damages during shipping.

#### Shipping:

Our company offers free standard shipping for all orders within the continental United States. The Geo Extrusion Machine will be shipped within 3-5 business days. For international orders, shipping costs will be calculated at checkout and may vary depending on the destination. Please note that any customs or import duties are the responsibility of the buyer.

### FAQ:

- Q: What is the brand name of this extrusion machine?  
A: The brand name is CHANGYUE.
- Q: What is the model number of this extrusion machine?  
A: The model number is 90 MM.
- Q: Where is this extrusion machine manufactured?  
A: It is manufactured in China.
- Q: What certification does this extrusion machine have?  
A: It has a CE certification.
- Q: What is the minimum order quantity for this extrusion machine?  
A: The minimum order quantity is 1.
- Q: What is the price of this extrusion machine?  
A: The price is USD 38000.
- Q: What is the delivery time for this extrusion machine?  
A: The delivery time is 30 days.
- Q: What are the payment terms for this extrusion machine?  
A: The payment terms are 30% advance and the balance before shipment.
- Q: What is the supply ability for this extrusion machine?  
A: The supply ability is 5 per month.
