

## Stainless Steel Face Mask Nose Wire Machine for Qingdao Port Strip Loading Port

Our Product Introduction

more products please visit us on [plasticextrudersmachine.com](http://plasticextrudersmachine.com)

### Basic Information

- Place of Origin: Shangdong, China
- Brand Name: Changyue

### Product Specification

- Loading Port: Qingdao Port
- Assembly Structure: Separate Type Extruder
- Dimension: 3500\*900\*1680mm
- Currency: US\$
- Feeding Mode: Multiple Feed
- Material: Stainless Steel
- Screw Channel Structure: Deep Screw
- Automation: Automatic

## Product Description

### Product Description:

This PP nose wire making machine is designed with a powerful 1.5KW motor that ensures it operates efficiently and reliably. The machine's motor is also energy-saving, making it an eco-friendly option for the production of face masks. Additionally, the machine features an ABB/Delta inverter brand that offers precise control over the machine's speed and performance.

The Face Mask Nose Wire Machine is a single-screw machine that is designed to be durable and long-lasting. It features high-quality materials that ensure its longevity, and its compact design ensures that it won't take up too much space in your production facility. The machine's dimensions are 3500\*900\*1680mm, making it easy to integrate into your existing production line.

Overall, the Face Mask Nose Wire Machine is an excellent investment for businesses that want to produce high-quality face masks with reliable and secure nose wires. With its automatic feeding, cutting, and inserting of nose wire, you can produce face masks quickly and efficiently. Plus, with its powerful motor and ABB/Delta inverter brand, you can be sure that this PP nose wire making machine will operate reliably and efficiently for years to come.

### Features:

Product Name: Face Mask Nose Wire Machine

Feeding Mode: Multiple Feed

Screw: Single-Screw

Size: 15m\*1.5m\*2.5m

Features: Automatic Feeding, Cutting, and Inserting of Nose Wire

Other Features: Nose Bridge Strip Production Line, Double Core Flexible Nose Clip Making Machine, PP Nose Wire Making Machine

Loading Port: Qingdao Port

### Technical Parameters:

Currency	US\$
Screw	Single-Screw
Trademark	Changyue
Assembly Structure	Separate Type Extruder
Features	Automatic Feeding, Cutting, And Inserting Of Nose Wire
Power	1.5KW
Screw Channel Structure	Deep Screw
Automation	Automatic
Product Type	Strip
Dimension	3500*900*1680mm

### Applications:

The Changyue face mask nose wire machine is a strip type machine with a separate type extruder assembly structure. It is equipped with an ABB/Delta inverter brand that ensures stable and reliable performance. The feeding mode of the machine is multiple feed, which makes it easy to use and highly productive.

The plastic nose wire machine extruder is easy to operate and can produce plastic nose wires in various sizes and shapes. The production process is simple and efficient, with the ability to produce up to 60 meters of nose wire per minute. The machine is suitable for use in a variety of scenarios, including large-scale production facilities and small manufacturing workshops.

The Changyue face mask nose wire machine is ideal for manufacturers who want to produce high-quality face masks that provide maximum protection to their customers. The machine is perfect for use in the medical industry, as well as in settings such as factories, schools, and other public places where face masks are required. It is also an excellent investment for entrepreneurs who want to start a business in the production of face masks or related products.

Overall, the Changyue face mask nose wire machine is a reliable and efficient machine that can help manufacturers produce high-quality face masks with ease. Its features, such as the double core flexible nose clip making machine and the plastic nose wire production line, make it a valuable asset for any business that wants to stay ahead of the competition.

### Customization:

### Support and Services:

**Packing and Shipping:**

The Face Mask Nose Wire Machine will be packaged in a sturdy cardboard box to ensure safe delivery. Inside the box, you will find the machine itself, a power cord, and a user manual.

**Shipping:**

We offer free shipping for all orders of the Face Mask Nose Wire Machine. We will ship the product within 1-3 business days of receiving your order. Delivery time will depend on your location and can take up to 2 weeks. We will provide you with a tracking number to follow your package's journey to you.
