

One Feed Mode Single-Screw Belt Manufacturing Plant for and Production

Our Product Introduction

Basic Information

- Place of Origin: Shandong, China
- Brand Name: PET strap band extrusion line
- Certification: CE, ISO9001
- Model Number: SJ90
- Minimum Order Quantity: 1 SET
- Price: USD55000-USD85000
- Packaging Details: As per customer
- Delivery Time: 60 days
- Payment Terms: L/C, T/T
- Supply Ability: >5 SETS

Product Specification

- Power Supply: 380V/50Hz
- Transport Package: Export Package
- Plastic Processed: Pet
- Suitable Material: Pet / PP
- Screw: Single-Screw
- Trademark: Changyue
- Inverter Brand: ABB/Delta
- Product Width: 9-19mm
- Highlight: 19mm pet strap extrusion line,
19mm strap band production line

Product Description

Product Description:

The Strap Band Production Line is designed with a single-screw that is highly efficient and reliable. This screw is capable of producing high-quality strap bands quickly and efficiently. Additionally, the screw is easy to maintain, which reduces downtime and increases productivity.

The Strap Band Production Line has an HS code of 84772090, which ensures that it meets all the necessary quality and safety standards. This code also makes it easy to import and export the production line to different countries.

The Strap Band Production Line is also equipped with an exhaust system that ensures that the production process is clean and environmentally friendly. The exhaust system removes any excess material or fumes produced during the production process.

Overall, the Strap Band Production Line is an advanced extrusion line that is ideal for producing high-quality strap bands. With its deep screw channel structure, single-screw, and exhaust system, this production line is efficient, reliable, and environmentally friendly. It is the perfect solution for businesses that require high-quality strap bands for their products.

Features:

Product Name: Strap-Band-Production-Line

Trademark: Changyue

Transport Package: Export Package

Feeding Mode: One Feed

Package Size: 500.00cm * 250.00cm * 200.00cm

Suitable Material: Pet / PP

Features:

Extrusion line for producing strap bands

High-quality extrusion machine for efficient production

Reliable and durable production line

One feed feeding mode for ease of use

Suitable for use with Pet and PP materials

Technical Parameters:

Package Size	500.00cm * 250.00cm * 200.00cm
Inverter Brand	ABB/Delta
Screw Channel Structure	Deep Screw
Suitable Material	Pet / PP
Screw	Single-Screw
Automation	Automatic
Power Supply	380V/50Hz
Hs Code	84772090
Plastic Processed	Pet
Product Width	9-19mm

Applications:

This production line is fully automatic and is powered by a 380V/50Hz power supply. It has a feeding mode of one feed and a single-screw design. The product width produced by this machine ranges from 9-19mm. The PET strap band extrusion line is highly versatile and can be used in a variety of application occasions and scenarios. Some of these include:

Manufacturing plants: This production line is ideal for manufacturing plants that require high-quality PET belt for their products. It can be used for a variety of products, including packaging materials, textiles, and more.

Logistics and shipping companies: PET belt is commonly used in logistics and shipping companies for securing packages and goods during transportation. The PET strap band extrusion line can help these companies produce their own high-quality PET belt, reducing their reliance on suppliers and improving their bottom line.

Construction and building materials: PET belt is also used in construction and building materials for reinforcement and support. The PET strap band extrusion line can produce custom-sized PET belt to meet the needs of construction and building companies.

Overall, the PET strap band extrusion line is an excellent investment for companies that require high-quality PET belt for their products. Its automatic design, single-screw system, and wide range of product widths make it a versatile and cost-effective choice for any

manufacturing plant or company.

Customization:

Brand Name: PET-strap band extrusion line

Model Number: SJ90

Place of Origin: Shandong, China

Certification: CE, ISO9001

Minimum Order Quantity: 1 SET

Price: USD55000-USD85000

Packaging Details: As per customer

Delivery Time: 60 days

Payment Terms: L/C, T/T

Supply Ability: >5 SETS

Exhaust: Exhaust

Package Size: 500.00cm * 250.00cm * 200.00cm

Screw Channel Structure: Deep Screw

Suitable Material: Pet / PP

Automation: Automatic

This product customization service is for a plastic extruder, specifically for the production of strap bands. The extrusion line is capable of producing high-quality strap bands with a deep screw channel structure, using materials such as Pet and PP. It is certified with CE and ISO9001, and has a minimum order quantity of 1 set. The price range for this product is between USD55000-USD85000, and packaging details can be customized as per customer requirements. The delivery time is 60 days, and payment can be made through L/C or T/T. The supply ability of this product is greater than 5 sets, and the exhaust system is equipped with an exhaust mechanism. The package size of this product is 500.00cm * 250.00cm * 200.00cm, and it is fully automated for efficient production.

Support and Services:

Our Strap Band Production Line product comes with comprehensive technical support and services to ensure smooth operation and maximum productivity.

Our technical support team is available to assist with installation, setup, and troubleshooting of the production line. They can also provide training and guidance on how to optimize the performance of the equipment.

In addition, we offer preventive maintenance services to keep the production line running at peak efficiency and minimize downtime. Our team can also perform repairs and replacements as needed, ensuring minimal disruption to your operations.

We understand that every business has unique needs, so we can also provide customized services tailored to your specific requirements. Contact us to learn more about how we can support your production line needs.

Packing and Shipping:

Our Strap Band Production Line product comes in a sturdy cardboard box with product information and branding printed on it. The product is securely packaged with bubble wrap and foam padding to ensure safe shipping.

We offer free shipping for all orders within the United States, with an estimated delivery time of 3-5 business days. International shipping is also available for an additional fee and delivery time may vary depending on the destination.

Please note that we do not accept returns or exchanges for this product, unless it is damaged during shipping. If your product arrives damaged, please contact us within 24 hours of receiving it and we will provide a replacement or refund.

FAQ:

Q1: What is the brand name of the strap band production line?

A1: The brand name of the strap band production line is PET strap band extrusion line.

Q2: What is the model number of the strap band production line?

A2: The model number of the strap band production line is SJ90.

Q3: Where is the strap band production line manufactured?

A3: The strap band production line is manufactured in Shandong, China.

Q4: What certifications does the strap band production line have?

A4: The strap band production line has CE and ISO9001 certifications.

Q5: What is the minimum order quantity for the strap band production line?

A5: The minimum order quantity for the strap band production line is 1 set.

Q6: What is the price range for the strap band production line?

A6: The price range for the strap band production line is USD55000-USD85000.

Q7: What are the packaging details for the strap band production line?

A7: The packaging details for the strap band production line are as per customer.

Q8: What is the delivery time for the strap band production line?

A8: The delivery time for the strap band production line is 60 days.

Q9: What are the payment terms for the strap band production line?

A9: The payment terms for the strap band production line are L/C and T/T.

Q10: What is the supply ability for the strap band production line?

A10: The supply ability for the strap band production line is more than 5 sets.
