

Double Screws SJSZ92/188 Plastic Profile Extrusion Machine for Building Materials

Our Product Introduction

more products please visit us on plasticextrudermachine.com

Basic Information

- Place of Origin: Shangdong, China
- Brand Name: Changyue
- Certification: CE
- Minimum Order Quantity: 1 set
- Price: USD 30000
- Packaging Details: Wooden box packaging
- Delivery Time: 30 days
- Payment Terms: T/T L/C
- Supply Ability: 10 sets/month

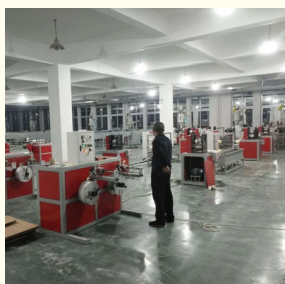

Product Specification

- Finished Product: PVC Door & Window Profile
- Raw Material: PVC WPC
- Screw No: Double-screw
- Motor Brand: WEG/Siemens
- Main Motor: AC Motor
- Condition: New
- Feeding Mode: One Feed
- Screw Processing: Nitriding Treatment
- Highlight: door plastic profile extruders,
window plastic profile extruders,
door plastic profile extrusion machine

Product Description

Product Description:

Our Plastic Profile Extrusion Machine features a double-screw extruder that is ideal for producing various plastic profiles, including PVC and WPC profiles. With its advanced screw design, this machine can efficiently process a wide range of raw materials, ensuring consistent quality and performance.

The extruder model used in this machine is the SJSZ 55/120 Twin Conical Screw Extruder, which is known for its excellent durability and stability. This extruder can handle the production of different types of profiles, including window profiles, door profiles, and decorative profiles.

The machine is equipped with an AC motor that can deliver powerful performance and reliable operation. This motor ensures that the machine can operate at optimal efficiency, which helps reduce energy consumption and production costs.

Our Plastic Profile Extrusion Machine is designed to meet the demands of various industries, including the construction industry, furniture industry, and automotive industry. It is an ideal choice for manufacturers who want to produce high-quality plastic profiles at a reasonable cost.

Whether you are looking to manufacture PVC door making machine, UPVC window making machine, or WPC door frame machine, our Plastic Profile Extrusion Machine is the perfect solution. It offers excellent reliability, efficiency, and performance, making it one of the best machines in the market today.

Features:

Product Name: Plastic Profile Extrusion Machine

Raw Material: PVC WPC

Screw Processing: Nitriding Treatment

Extruder Model: Sjsz 55/120 Twin Conical Screw Extruder

Screw Type: Double Screws

Main Motor: AC Motor

Suitable for PVC wall panel production line

Perfect for upvc windows production line

Great for PVC trunking profile machine

Technical Parameters:

Technical Parameters	Details
Raw Material	PVC WPC
Motor Brand	WEG/Siemens
Inverter Brand	ABB/Delta
Automatic Grade	Automatic
Condition	New
Screw Processing	Nitriding Treatment
Finished Product	PVC Door & Window Profile
Feeding Mode	One Feed
Extruder Model	Sjsz 55/120 Twin Conical Screw Extruder
Computerized	Computerized

This Plastic Profile Extrusion Machine is suitable for producing UPVC door frame line, wpc door frame machine, and upvc profile extrusion machine.

Applications:

The minimum order quantity for these machines is 1 set, with a price of USD 30000. The machines are delivered in wooden boxes, ensuring that they are protected during transportation. The delivery time for these machines is 30 days, and payment can be made through T/T or L/C. With a supply ability of 10 sets per month, Changyue can meet the demands of various customers.

These plastic profile extrusion machines are designed for the production of PVC door and window profiles. The extruder model is the SJSZ 55/120 twin conical screw extruder, which is known for its efficiency and reliability. The motor brand used in these machines is either WEG or Siemens, depending on the customer's preference. Additionally, the inverter brand used is either ABB or Delta.

These machines are perfect for a variety of product application occasions and scenarios. One such occasion is the production of WPC solid door frame lines. These machines are capable of producing high-quality frames that are durable and long-lasting. Another application scenario is the production of UPVC door frame lines. With the use of these machines, you can be assured that you are getting a product that is both reliable and efficient.

Finally, if you need a PVC profile crusher, these machines can be used for that purpose as well. With their double screw design, they are

capable of producing high-quality crushed PVC profiles that can be used for a variety of applications. With Changyue's plastic profile extrusion machines, you can be assured that you are getting a reliable and efficient product that meets the highest quality standards.

Customization:

With our product customization services, you can customize your upvc windows production line or UPVC window profile line to meet your specific needs. Our PVC door frame extruder allows for precise customization and high-quality output. Contact us today to learn more about our customization services.

Support and Services:

The Plastic Profile Extrusion Machine is a highly specialized piece of equipment that requires expert technical support to ensure optimal performance. Our team of experienced technicians is available to provide comprehensive support and services, including:

- Installation and setup
- Maintenance and repair
- Training and education
- Performance optimization

Our technical support team is dedicated to working closely with our customers to address any issues and provide personalized solutions to ensure maximum uptime and production efficiency. Additionally, we offer ongoing support and maintenance plans to help prolong the lifespan of your machine and minimize downtime.

Packing and Shipping:

Product Packaging:

The Plastic Profile Extrusion Machine is packaged in a sturdy wooden crate to ensure safe transportation. The crate is lined with foam to prevent any damage during shipping.

Shipping:

The Plastic Profile Extrusion Machine will be shipped via sea freight or air freight, depending on the customer's preference and location. The shipping costs will be calculated based on the destination and weight of the machine. Delivery time may vary depending on the shipping method and destination, but we will provide a tracking number to the customer so they can track their package.

FAQ:

Q: What is the brand name of the Plastic Profile Extrusion Machine?

A: The brand name of the machine is Changyue.

Q: Where is the machine manufactured?

A: The machine is manufactured in Shangdong, China.

Q: Is the machine certified?

A: Yes, the machine is certified with CE.

Q: What is the minimum order quantity for the machine?

A: The minimum order quantity for the machine is 1 set.

Q: What is the price of the machine?

A: The price of the machine is USD 30000.

Q: How is the machine packaged?

A: The machine is packaged using wooden box packaging.

Q: What is the delivery time for the machine?

A: The delivery time for the machine is 30 days.

Q: What are the payment terms for the machine?

A: The payment terms for the machine are T/T and L/C.

Q: What is the supply ability for the machine?

A: The supply ability for the machine is 10 sets/month.
