### Basic Information

- Place of Origin: Shangdong, China
- Brand Name: Changyue
- Certification: CE
- Minimum Order Quantity: 1 set
- Price: USD166000
- Packaging Details: Wooden box packaging
- Delivery Time: 30 days
- Payment Terms: T/T L/C
- Supply Ability: 5 sets/month

### Product Specification

- Currency: US\$
- Motor Brand: WEG/Siemens
- Sheet Thickness: 1-3mm
- Inverter Brand: ABB/Delta
- Species: Homo Sapiens
- Model No: SJ 90
- Raw Material: PE Granules
- Machine Output: 300Kg/H
- Highlight: 300kg/h geo cell line,  
300kg/h geocell production line

## Product Description

### Product Description:

The Geo Cell Service Line comes in a package size of 500.00cm \* 250.00cm \* 200.00cm, making it easy to install in any location. The package contains everything needed for easy installation, including the necessary hardware and software.

One of the standout features of the Geo Cell Service Line is its sheet thickness of 1-3mm, which is perfect for use in a wide range of applications. The thickness ensures that the communication signals are stable and reliable, regardless of the location or environmental conditions.

The Geo Cell Service Line also features an inverter brand that is renowned for its quality and reliability. Customers can choose between ABB and Delta inverters, both of which are known for their high performance and durability.

The Geo Cell Service Line is ideal for use in a variety of applications, including remote monitoring, industrial automation, and telecommunication. It is also an excellent choice for use in areas with poor network coverage or where traditional communication methods are unreliable.

With the Geo Cell Service Line, customers can enjoy fast and reliable Geographic Cell Communication. This innovative product is a game changer in the field of cellular communication and is a must-have for anyone looking for a reliable and efficient communication solution.

### Features:

Product Name: Geo Cell Line

Machine Output: 300Kg/H

Trademark: Changyue

Cell Source: Primary Cells

Product Type: Cell Line

Model No: SJ 90

Introducing the Geo Cell Line, the latest addition to our Geo Cell Service Line. With primary cells as the cell source, this cell line boasts a machine output of 300Kg/H, making it a reliable choice for all your cell culture needs. Trademarked by Changyue, this cell line is a model of excellence, with its model number SJ 90. Choose the Geo Cell Line for the best in Geographic Cell Communication.

### Technical Parameters:

Trademark	Changyue
Motor Brand	WEG/Siemens
Product Type	Cell Line
Cell Source	Primary Cells
Machine Output	300Kg/H
Loading Port	Qingdao Port
Sheet Thickness	1-3mm
Package Size	500.00cm * 250.00cm * 200.00cm
Model No	SJ 90
Inverter Brand	ABB/Delta

### Applications:

The Changyue Geo Cell Line product is a high-quality production line from Shandong, China that is designed for the manufacturing of geographic cell communication products. The product is CE certified and has a minimum order quantity of 1 set, with a price of USD166000. The packaging details include wooden box packaging, and the delivery time is 30 days. Payment terms include T/T and L/C, and the supply ability is 5 sets/month. The package size is 500.00cm \* 250.00cm \* 200.00cm, and the sheet thickness is 1-3mm. The model no is SJ 90, and the machine output is 300Kg/H. The raw material used for production is PE Granules.

The Geo Cell Line product is perfect for a variety of product application occasions and scenarios. The product can be used for the production of geographic cell communication products such as Geo Cell Service Line, which is used to establish reliable communication networks in remote areas with difficult terrain. The Geo Cell Service Line is ideal for use in rural areas, mountainous areas, and other remote locations where traditional communication networks are not available.

The Geo Cell Line product is perfect for companies that specialize in the production of geographic cell communication products. The product can be used to produce a wide range of products, including Geo Cell Service Line, which is used for establishing reliable communication networks in remote areas. The Geo Cell Line product is also ideal for companies that specialize in the production of PE Granules, as the raw material used in the production of the Geo Cell Line product is PE Granules.

The Geo Cell Line product is also perfect for companies that are looking to expand their product offerings. The product can be used to produce a wide range of geographic cell communication products, which can help companies to expand their product lines and increase their revenue streams. The Geo Cell Line product is also ideal for companies that are looking to enter the geographic cell communication market, as it provides a high-quality production line that is designed specifically for the production of geographic cell communication products.

## Customization:

Customize your Geo Cell Service Line with Changyue, originating from Shangdong, China.. Our products are CE certified with a minimum order quantity of 1 set at a reasonable price of USD166000. Each product is packaged in wooden box packaging and has a delivery time of 30 days. Payment terms include T/T and L/C. We have a monthly supply ability of 5 sets and our currency is US\$. Our model number is SJ 90 and our product is suitable for human organisms. The loading port for our product is Qingdao Port and the sheet width ranges from 600-1500mm. Let us help you with your Geographic Cell Communication needs.

## Support and Services:
